

# 5th International REN Conference – Rome

## SHAPING THE FUTURE OF EDUCATION

### *New Challenges in Universal Design for Learning*

The fifth edition of REN Conference aims to focus on the opportunities to shape the future of education and contribute to a meaningful dialogue on a new paradigm, that reimagines schools as ecosystems—shifting from rigid structures to systems that are open, adaptive, and inclusive, building on the insights from Universal Design for Learning. The event will bring together educators, researchers, policymakers, and innovators to share insights, propose solutions, and foster collaboration in shaping the education systems of tomorrow.
